RV Departure Form

This form must be completed for quality assurance, insurance protection, and to ensure the best possible owner and renter experience.

Important Reminder: Prior to the arrival of your renters, you should have your RV or travel trailer completely ready to go. Please make sure you have completed all of the tasks on the Pre-Arrival Checklist.

Step 1: Damage Walkthrough

The purpose of this walkthrough is to set an agreed upon condition baseline of your RV or travel trailer with the renter. You should do a comprehensive review of the entire interior and exterior, including the undercarriage and the roof. Point out all pre-existing damage and record it here on the Departure Form. Invite the renter to point out any damage or wear and tear that they see and record it on the form.

Any damages on the Return Form that are not on the Departure Form are the responsibility of the renter.

Note Exterior Damages:

Please spend at least 10 minutes thoroughly examining your rig with your renter.

Note Interior Damages:

Please spend at least 10 minutes thoroughly examining your rig with your renter.

Step 2: Training Walkthrough

The purpose of the Training Walkthrough is to educate your renter on the elements and nuances of operating your RV or travel trailer. Be thorough and remember things that seem obvious to you will not be as obvious to your renters!

You are responsible for ensuring your travelers have all the necessary knowledge to operate your RV or travel trailer. Please check each step below once it is completed.

	Generator		Water Hookup
	Furniture		Slide-Out
	Hitch (Trailers)		Bathroom
	Cleaning		Fluids
	Storage While Traveling		Power Hookup
	Kitchen		Unit Specific
	Tire		Other

Step 3: Setup Lesson

Please teach your renters each element of setting up and taking down camp with your RV or travel trailer. If your unit is a travel trailer, this will require that you teach the renter how to attach and detach the trailer. Again, be very thorough, and remember things that seem obvious to you may not be as obvious to your renters.

It is important that you demonstrate and instruct on every element of setup and take down, but also allow the renters to do each step themselves under your close watch. This way, your renters will have the confidence and knowledge from having performed each task and you will be confident that they know what they are doing.

Step 4: Driving Lesson

You should now take your renters on a brief driving lesson around your area. All drivers that have been verified and are listed on the contract should have a turn driving the RV or towing the travel trailer.

Please note that failing to provide a driving lesson will nullify your case in the event of a disputed claim.

	Engine Starting		Reversing		Highway Driving
	Left Turn		Appropriate Speeds		Residential Roads
	Right Turn		Gas Station		Parking
