Pre-Arrival Checklist

Here's a handy list of tasks to complete before the arrival of your renters:

Exterior Cleaning

Just like you would not expect to rent a dirty car, your renters do not expect to rent dirty RVs. So please make sure the exterior of your RV has been thoroughly cleaned before the arrival of your travelers. Remember, the cleaner your RV, the better your review will be!

Interior Cleaning

Just like the exterior, the interior of the RV should be as spic and span as possible. No one really likes to check-in to a dirty room. Make sure the interior of your RV has been meticulously cleaned before the arrival of your guests.

Tire Inspection

Tires are super important on the road, so give every single tire a thorough inspection. This includes the interior tires on dual wheel units. Keep in mind that tires rot from the inside out. Whatever damage you see on the outside is far worse on the inside. You should check the tires for:

- ✓ Wear
- ✓ Tread Depth
- ✓ Bulges
- ✓ Cuts
- ✓ Proper Inflation

Never allow a rental to occur if there is an unresolved tire issue. Any tires in question must be replaced. Do not rent your RV or travel trailer if its tires are old. #1 cause of RV and travel trailer accidents is tire failure. So please be extremely diligent in maintaining the quality of your tires. Thank you.

Routine Maintenance

You must adhere to a regular maintenance schedule for your RV or travel trailer. If you do not already, you should begin routine maintenance prior to the arrival of your guests. An easy way to do this is to take your RV or travel trailer to a dealership or service professional and have it serviced.

Outdoorsy

Fluid Check

Check all fluid levels in your RV:

- ✓ Oil
- ✓ Generator Oil
- ✓ Transmission Fluid
- ✓ Brake Fluid
- ✓ Radiator Fluid
- ✓ Windshield Washer Fluid

Signals Check

Check all lights and signals on your RV or travel trailer:

- ✓ Driving Lights
- ✓ Head Lights
- ✓ High Beam Lights
- ✓ Rear Driving Lights
- ✓ Brake Lights
- ✓ Front Turn Signals
- ✓ Rear Turn Signals

Systems & Features Check

Check all auxiliary features and systems on your RV or travel trailer. Examples:

- ✓ Generator Check
- ✓ Awning Check
- ✓ Slide-Out Check
- ✓ Refrigerator/Appliances Check

Test Drive

Take your RV or travel trailer on a test drive to check for observable issues and to ensure the unit is ready for travel. Drive the RV at a range of speeds, from highway to residential driving. Look out for any noises, vibrations, smells, or other signals that there is an issue with the unit. Do not allow a rental to occur if you suspect any type of problem with your unit.

Paperwork Ready

Get all the necessary paperwork printed out and ready. This includes your *Rental Agreement*, *Outdoorsy Terms & Conditions*, *Departure Form*, *Liability Waiver Form*, as well as any *additional contracts or forms* you will want signed.

Make Adequate Time For A Walkthrough & Send Off

It's best if your travelers never feel rushed when they come to pick up your RV or travel trailer. Be sure to schedule adequate time on the day of departure for a thorough walkthrough, proper instructions, a test drive, and time to answer all questions and handle paperwork. That guarantees the best results for both you and them! Thank you.
